

Remarks

Favorable consideration of the subject application is respectfully requested in view of the above amendments and the following remarks. Claims 1-17 are pending in the application, with claim 1 being in independent format.

The specification has been amended to correct a typographical error, namely the serial number of the parent UK application has been corrected. A supplemental application data sheet is also included with this submission.

It is urged that support for all the above amendments may be found throughout the specification as originally filed. Applicants further submit that the above amendments are not being made for reasons of patentability and therefore do not give rise to prosecution history estoppel.

Early consideration and allowance of the amended application is respectfully requested.

Respectfully submitted,
